B_Nights: Stayed Nights

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=72291 / 56521948.042] [Invalid=0 / 0]
Universe	Every person who normally resides in this household
Literal question	Has stayed here (in this household) for at least four nights on average per week during the last four weeks?
Notes	The instruction in this question is to end the interview with those who have answered 'No' (those who have not spent at least four nights per week during the last four weeks in this household). This question identifies household members within the selected dwelling.

Value	Label	Cases	Weighted	Percentage (Weighted)

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Gender: Gender

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=72291 / 56521948.042] [Invalid=0 / 0]
Universe	Every person who has stayed in the household in the selected dwelling unit at least four nights per week in the four weeks prior to the interview.
Literal question	Is a male or a female?
Notes	This question is asked for each household member to determine his or her gender. This question, and all consequent questions, are applicable only if there is a 'Yes' answer in the previous question, which determines whether a person is a household member or not. The survey officers are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances but make identification according to the respondent's answer to such.

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Male	34255	27620641.6	 48.9%
2	Female	38036	28901306.4	 51.1%

Age: Age

Information	[Type= continuous] [Format=numeric] [Range= 0-107] [Missing=*]
Statistics [NW/ W]	[Valid=72291 / 56521948.042] [Invalid=0 / 0]
Universe	Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior the interview.
Literal question	What iss date of birth, and age in completed years?
Notes	This question is asked to find out the ages and dates of birth of the household members. Concerning the date of birth, the survey officers were requested to confirm the date from documentation if the respondent did not know the date of birth. The

File : person2017

Age: Age

question starts with Day of birth, then the Month of birth and finally the Age in years. For Month of birth the equivalent is given in 2-digit numbers, i.e. January is represented with 01, February with 02 and so forth. The Year of birth is given as a four-digit number, e.g. 1933 or 1996.

The instruction for Age in years is to write the years in whole numbers and not in words. Moreover, these years must be complete years; thus if a person is two years and six months old, the instruction is to write the two completed years. For children who are less than a year, the instruction is to write 00.

Universe	Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior the interview.
Literal question	What population group does belong to?
Notes	This question is asked to determine the population group of household members from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance survey officers are also instructed not to make any conclusions which may be influenced by their observation or using people's names during the interview as some names may be unisex (e.g. Anele is one such example). Also this question may be very sensitive to some respondents, especially in this post-apartheid era, but it is really important to find out what the composition of the South African population is.

Universe	This is applicable to all female members of the household aged 12-50 in the selected dwelling unit who were pregnant during the 12 months preceding the survey.			
Literal question	If "Yes" in Q2.7a What is the current status of this pregnancy?			
Notes	The current status of the pregnancy is being established in this question. Note that options 4 and 5 are similar in that the pregnancy ended before the child was born. However, they differ in respect of the time when the child died. In option 4 the child died as a result of a miscarriage or spontaneous abortion, thus the mother had no choice. Option 5 refers to a situation where the mother chose to end the pregnancy through an intervention by herself or a medical practitioner (abortion/ termination of pregnancy).

# Q41cVOL: Work without remuneration				
Statistics [NW/ W]		[Valid=72291 /-] [Invalid=0 /-]		
Universe		This is applicable to all members of the household in the selected dwelling unit who are 15 years and older.		
Literal question		In the last week did ... help without being paid in any kind of business, run by his/her household even if it was for only one hour? Examples: Commercial farming, production of agricultural produce to sell, help to sell things, make things for sale or exchange, doing the accounts, cleaning up for the business, etc.		
Notes		This question asks each individual in the household whether they did any voluntary work, i.e. without being paid, in any kind of business, big or small. Note that all kinds of business activities, even if they were done for only one hour, have to be included. The reference period is the last calendar week. If the answer is 'Yes' to any of these questions, the instruction is to proceed to Q4.2a; otherwise ask Q4.1d.
